Stroke Treatment & Prevention Health Talk

One person suffers a stroke every 5 minutes in the UK.

There are 1.2 million stroke survivors.

Early recognition of stroke symptoms & immediate access to treatment improves outcomes.

The talk will be delivered by **Dr Andre van Wyk & Dr Kiruba Nagarathnam** Stroke Consultants at the Royal Berkshire Hospital.

Topics Covered:

- ❖ **Stroke Prevention**
- ❖ **Thrombectomy the latest state of the art treatment for acute stroke**

This talk is FREE and Open to All
